HYDRO 2018 – held at AMBEREXPO
14 – 17 October 2018

The world hydro community met in Gdansk for discussions to advance global hydropower development. The event was the 25th annual Europe-based Hydro event to be organized by Aqua~Media International Ltd, who are based in the United Kingdom. ASK Event Management acted as the event managers for the conference.

A major technical exhibition featuring 200 companies ran concurrently with the conference for the hydropower and dam engineering profession showcasing their latest activities, and areas of expertise. As part of the social programme for the event, an evening networking reception was held at the Europejskie Centrum Solidarności and a gala dinner was hosted at the Polska Filharmonia Bałtycka im. Fryderyka Chopina.

Full event support was offered to us by AMBEREXPO, including technical support to meet our substantial AV requirements. This support was lead by Marta Dulkiewicz and assisted by Krzysztof Śmiech. Marta and Krzysztof made every effort to ensure the success of the event. They warmly welcomed us on our pre-event site visits, and our questions and queries concerning logistical arrangements for the event were always answered. No detail was considered too small for their attention. During the event itself, Marta and Krzysztof were always contactable and ready to assist whenever required.

Our delegates widely reported that they thoroughly enjoyed visiting the fascinating city of Gdansk, and we would have no hesitation in recommending AMBEREXPO as a suitable venue for hosting an international gathering of experts.

Yours faithfully,

Abigail Stevens and Keta Hunt
Co-Directors
